Aviation Weather: FAA Needs to Resolve Questions Involving the Use of New Radars: Rced-90-17

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information about the Federal Aviation Administrations (FAA) progress in disseminating hazardous weather data from three new weather-related systems, focusing on: (1) FAA progress in preparing the necessary operational procedures for the Airport Surveillance Radar (ASR-9) weather channel and the Terminal Doppler Weather Radar (TDWR); and (2) the status and availability of weather services FAA intended to provide through the Aeronautical Data Link. GAO found that FAA: (1) did not implement formal procedures for transmitting ASR-9 weather data from controllers to pilots, although the first ASR-9 radar was operational and FAA planned to deploy additional radars; (2) believed that controllers needed to experience basic changes in ASR-9 precipitation detection capabilities before it issued formal procedures, and did not believe that the absence of operational procedures hindered controllers use of ASR-9, although controllers lacked guidance regarding how often to use ASR-9 or how to interpret the precipitation display; (3) did not require controllers to use ASR-9 weather information to reroute planes, although the improved weather detection capability could help controllers anticipate the need to reroute planes...

Reviews

Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.
