Woodbine House, 2015. Softcover. Book Condition: New. Even veteran teachers of students with autism sometimes need help to determine why their instructional methods are not getting the desired results. In *Solve Common Teaching Challenges in Children with Autism*, behavior and education experts describe 8 potential problem areas, and offer teaching strategies to promote successful learning: ? Motivation (appropriate reinforcement) ? Manding (requesting & responding skills) ? Learning-to-Learn (prerequisite skills) ? Prompting (physical guidance, gesturing, verbal instruction) ? Language Environment (comprehension aid or distraction?) ? Learning Opportunities (quality over quantity) ? Individualizing Instruction (meet student's needs) ? Skills & Goals (meaningful & purposeful) Each chapter offers an illustrative case study, a critical examination of why the problem arises, and practical instructional solutions. Additional material within chapters? a table, glossary, checklist, Q & A, chart, or form? helps readers to further assess the issue. Educators, therapists, and parents familiar with ABA methods will feel empowered by this handy guide and reinvigorated to solve their teaching challenges.
