Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****. Excerpt from Elements of Finite Differences, Vol. 1: Also Solutions to Questions, Set for Part the of the Examinations of the Institute of Actuaries Part I. of the following work is mainly intended as a Text-Book of Finite Differences for Students preparing for Part I. of the Examinations of the Institute of Actuaries. It has been so arranged that the Student need not necessarily have any knowledge of trigonometry or conic sections and it will be noticed that this has in some cases necessitated somewhat lengthy arguments. Parts II. and III. deal with 250 questions set during the last sixteen years in the Actuarial Examination papers. The solutions are not given in all cases in such form as would be most suitable as answers in an examination paper, since it has been thought advisable to give a full discussion in any case where it is possible that a Student might otherwise find a difficulty in following the solution. It will be seen that there are 40 solutions of Finite Difference questions, which practically form an appendix to Part I. The answers are given separately in Part IV. in order that the advantages to be gained by independent thought may not be forfeited by premature reference to the solution. Unless otherwise stated, the references are to be found, in the fourth edition of Hall Knight's Higher Algebra. We have much pleasure in acknowledging the assistance rendered by Mr. C. W. Kenchington, F.I.A., not only in the work of revision and correction, but also for several useful suggestions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a...
