Figure 3: Upgraded Alarm Display and Closed Circuit Television Monitors Inside a Central Alarm Station at a HEU Research Reactor Source: NNSA. In addition, NNSA works with officials in countries included in the GRRS program to develop emergency plans and training exercises with on-site guard forces as well as local, regional, and national law enforcement agencies. For example, at one facility we visited, NNSA officials had worked with the reactor managers to develop emergency plans, and the managers routinely test these plans with different elements of the national emergency responders including the facility guard force, local police, regional police, and the national - level law enforcement including special assault teams. IAEA guidelines state that coordination between facility guards and off-site response forces should be regularly exercised. In addition, NNSAs alert and notify strategy relies on off-site response forces to supplement the on-site guard force to contain, locate, and neutralize adversaries before they can successfully steal nuclear material or sabotage the reactor. The focus of NNSAs program has been on protecting reactors that use or store HEU fuel that could potentially be used in an improvised nuclear device where security does not meet IAEA guidelines. In addition, some research reactors using LEU fuel - which cannot be used to make a Page 11 GAO-09-949 Nuclear Nonproliferation This item ships from La Vergne,TN. Paperback.
