By Robert McArdle Keown

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Mechanism The writer s aim has been to cover the subject of mechanism as briefly, simply and clearly as possible. The text is designed for a half year s work of one lecture, one recitation and four hours drafting work per week. No especial claim to originality of subject matter can be made, nor has the writer found need for a special effort in this direction. The arrangement and method of treatment are new, and these the author bases upon satisfactory results obtained in the work of his classes in the College of Engineering of the University of Wisconsin. After a brief discussion of motions and velocities linkages are taken up, as they are comparatively easy for the student to understand, and simple problems can be given out while the subject is yet new to him. Cams are taken up in detail, as they form a part of the subject in which the student needs considerable practice in order to work out original problems, and practically all cam problems are original. The involute system of...
