*****.If you were looking for an introductory textbook written in simple English and easy to follow charts, graphs, and math, then this is it. This book will help you find answers to questions that you were anxious to ask but were afraid to. Using examples and news from everyday life, the book will make you realize that how much economics you already know and live by. The television news, print and social media will make better sense and you will become a much more informed citizen. As a student of Economics 101 you won't need to buy and digest a textbook of 500 plus pages that will cost you an arm and a leg and still find it hard to follow the laws and theories of economics. For an instructor this is a readymade manual based on author's years and years of teaching experience. AUTHOR The author is a retired professor of economics who has taught economics, business, and education courses from junior college to graduate levels for more than four decades in three...

Reviews

I actually started looking over this publication. It really is really interesting through studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.
