By David Allan Low, Alfred William Bevis

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Press Opinions If we turn from such general matters to something more specific, we find the same brief, almost curt, but still effective, treatment . Thus the formulas and figures which the locomotive engineer needs to have at his finger tips are all given clearly, but without any waste of words. . . . One of the good characteristics of Mr. Low's work is the wide use he has made of valuable authorities. . In the section on heat there is some clever work in definitions and their elucidation. We cannot devote more space to the consideration of this little volume, and probably we have already said more than enough to show that we rate it very highly. -The Engineer. Opinions may differ as to what shape and size may be carried in a pocket with comfort, but we venture to think that opinion will not differ much as to the merits of its contents, for it is without doubt one of the very best and up-to-date pocket-books which have been published. - The Railway Engineer....
